SUBJECT: Daily Progress Report for Monday, 29 Sept. 1952

1. BGFIEND - Athens reports that the Apple Team, which is operating northeast of Tirana establishing contacts and gathering information, has made contacts in Martanesh, Burrel and Peshkopi and is considering extending the information net to Durres and Tirana. (IN 39833)

Athens advises that the Fig Team, which was to establish a permanent radio base north of Korce and investigate the possibility of the defection of high level army and political figures, was ambushed during infiltration. The team lost all of its equipment but suffered no casualties. (IN 39629)

We are informed by the British that their Saluki Team exfiltrated by sea on the night of 18-19 September. This team was infiltrated on the night of 30-31 August to operate in the Elbasan and Kavaje area. Its mission was to link up with guerrillas understood to be operating just south of Tirana. The team established W/T contact but failed to make the contacts necessary to permit them to spend the winter in Albania. (IN 39883).
